

Alignment of the Idaho Early Learning Guidelines With HighScope's Preschool Child Observation Record (COR), 2nd edition

The following chart shows how items from the **Idaho Early Learning Guidelines** (2009) correspond to items from HighScope's **Preschool Child Observation Record (COR), 2nd edition**. The Preschool COR is an observation-based assessment instrument for children aged 2½–6 years. It is designed to measure children's progress in all early childhood programs (including, but not limited to those using the HighScope educational approach). It is divided into 6 major categories that are critical for school success: **Initiative; Social Relations; Creative Representation; Movement and Music; Language and Literacy; and Mathematics and Science**. Each category contains between 3 and 8 items, and each item has 5 developmental levels, ranging from 1 (the simplest) to 5 (the most complex). Teaching staff collect anecdotes for completing the COR during the normal daily routine, so the assessment process is seamlessly integrated with early childhood teaching and planning. The results provide detailed reports that analyze progress and are designed for various audiences, from families to government monitors.

Note that this alignment only includes items from the Preschool COR. It does not represent the full scope of the HighScope Preschool Curriculum because many abilities which are covered in our curriculum resources are not assessed on the COR. To fully evaluate how well state standards align with HighScope, it is necessary to also look closely at HighScope's curriculum materials. See the last page of this document for a list of HighScope's major curriculum resources and the topics they cover.

Goal 46: Children use creative arts to express and represent what they know, think, believe, or feel.

Participates in group music experiences (sings, finger plays, chants, musical instruments).

Explores simple songs using voice and/or instruments.

Remembers the words to an oft-repeated song.

Participates freely in dramatic play activities (pantomimes movement of familiar things, acts out stories, re-enacts events from his/her own life).

Tries one type of art many times (painting at easel several days in a row, using different colors, or covering the whole paper with paint).

Uses a variety of media and tools to create original works of art.

Creates art work with details representing ideas, experiences, and feelings.

Uses clay and other medium to create three-dimensional sculptures.
